CIPP Technical Envelope

The following table refers to municipal sewer cured-in-place pipe projects using the iPlus[®] Composite product. Insituform[®] can provide CIPP products that extend beyond these parameters through our engineering group. Contact us for additional information.

Diameter Range	24 to 96 in.
pH Range	0.5 to 10.5
Effluent Temperature	Up to 140° F
Fully Deteriorated Pipe	Yes
Partially Deteriorated Pipe	Yes
Bends	Yes
Offset Joints	Yes
Host Pipe Shape	All Shapes
Host Pipe Materials	All Materials
